Welcome Back!

Welcome to the 2019-20 school year! We are excited to see students back in the hallways creating excitement on a daily basis. It is always a thrill to see the hallways filled with students eager to get back into the routines as Fall quickly approaches.

Our summer has been busy as we needed to fill several positions due to retirements. We would like to wish Kathy Westhoven, Mary Jo Foos, and Diane Borys the best as they move onto the next stage of their lives. All three of these women will be missed more than words can say. They dedicated almost 100 years of service combined to Gibsonburg Schools. Being in many districts, it amazes me the dedication that teachers have to our students. It seems that we live in a very mobile society, but in Gibsonburg, when hired here, they stay. This is a true complement to our community. Thank you to Kathy, Mary Jo, and Diane. Although I only had the opportunity to work with you for 5 years, your efforts to our students and community are truly appreciated.

With these retirements, we had some movement of positions and new staff hired. Carrie Strausbaugh will be replacing Kathy Westhoven as a first grade teacher. Carrie is joining us from Fremont City Schools, but she is a graduate of Gibsonburg Schools. We are truly excited that she is coming home! Veronica Knieriem will be joining our Hilfiker staff, replacing Carrie Riffle in the Special Education Department. Carrie Riffle will be moving into Mary Jo Foos’ Title I position. Veronica was with us a few years back and we are excited that she will be returning to the Golden Bears. Courtney Gysan will be replacing Denton Saunders as a Special Education Instructor at Gibsonburg High School. Courtney is coming to us from Townsend School in Castalia, Ohio. Shane Dyer will be replacing Diane Borys as Hilfiker Physical Education Instructor. Shane has been with us for a while and will do a great job in this new role. We also have added Ellen Moser as our accounts payable person, Cindy St. Peter as bus driver and Michelle DeVore as mentoring coordinator. Marc Diels was recently hired as high school business teacher to give our students additional business and technology courses. We are excited that all of these people are joining our family.

In closing, with great excitement, I look forward to our students returning to the buildings. In this position, buried in paperwork and politics can skew your purpose of being an educator, which is students. Our vision/mission as a district is not elaborate or complicated. We want our students to succeed as readers, writers, and in mathematics, be safe at school, and we want to make all decisions for the well-being of our children. As mentioned, this is not complicated, but it is why we do what we do. I truly cannot wait to see the buses roll in and see the students. I look forward to seeing all of you on the 28th of August.

Breakfast will continue to be offered to all students every morning. The cost of the breakfast is $1.75. Students that receive free or reduced lunches can also receive free or reduced breakfast. The reduced breakfast price is $.30.

Any child who had money left on their account at the end of last year will have their balance carried over to start this school year. We would like parents to pre-pay on their child’s account by sending money with their child to take to the cafeteria first thing in the morning on any day of the week. Parents can also pre-pay online by using PayForIt. The website is available on the school website at www.gibsonburg.k12.oh.us.

Free and Reduced forms will be sent home with the elementary students on the first day of school. For the HS/MS students it will be in their folders at their orientation nights. Applications are also available throughout the year at any of the school offices. Have a great school year!!

High School Math

...from Mr. Mark Sworden, Math Teacher

CALCULATOR RECOMMENDATION

Attention parents of High School Math students ... The GHS Math Department has adopted the "TI 84 Plus CE "graphing calculator for use in High School Math courses. This is not an absolute requirement for students to purchase, but it is highly recommended for Algebra 1, Geometry, Algebra 2 and Pre-Calc students. Cost of this calculator can be anywhere from $90 to $130 -- watch the ads! These calculators will be useful to the students as they progress through the Math courses at GHS and into their college years. Students in Algebra 1 and Geometry will be introduced to these calculators in class and for use during state testing. Students in Algebra 2 will be taught many concepts through the use of this calculator. If you are going to purchase a calculator for your student in Algebra 1 or higher, please follow this recommendation. Calculators from the TI 84 family will be available for in-class use to any student who is not able to purchase their own. If you have questions about your purchase, be sure to save your receipts and check with your child's teacher.

Volunteering may be an hour or two of your time or donating an item or two for an event. Find us on Facebook-GibsonburgMiddleSchool PRIDE! Contact pride@gibsonburgschools.org for more information on how to help us help our middle school teachers and students!

We will make the announcement as early as possible, but not until the best alternative is determined. When you have questions about school being delayed or closed, please do not call the school. We must have all lines open to communicate with bus drivers, teachers and media during delays and closures. When in doubt, please check your phone or television channels 11, 13 and 24. We will continue to utilize the Honeywell Instant Alert System, but do not rely on this system 100% as an occasional glitch may occur when a bulk message is sent.
